Cincinnati CL940 6' x 12'
4000 watt Fiber Laser

Raytec Fabricating Services

Laser Cutting

- **4000 watt fiber laser 78" x 158" max sheet size**
Capacity - 1/2" thick mild steel, stainless steel, and aluminum.
High speed cutting of any profile to your desired tolerances.

Nisshinbo 22T Hydraulic
CNC Turret Punch

CNC Punching

- **22T Hydraulic turret punch 4' x 12' max sheet size**
3 1/2" dia. max punch size (dependent upon sheet thickness)
Efficiently and accurately punch holes, notches, slots, countersinks and more.
Roll stiffening ribs with rolling wheel tools. Form louvers, extrusions, and dimples.

Shearing

- **3/16" x 12' Shear**
- **11ga x 12' Shear with custom high speed CNC sheet feeder**
- **24ga x 48" wide coil cut-to-length line**

Cincinnati Autoform+ 6 axis
Press Brake 135T x 12'

Forming

- **135T x 12' 6 axis hydraulic press brake**
- **100T x 12' 2 axis hydraulic press brake**
- **90T x 10' 9 axis hydraulic press brake**
- **15T x 4 ft mechanical press brake**
Precision forming of parts up to 10ga (1/8") x 12' long.
- **13' x 12ga capacity CNC Folding machine.**
Capabilities include hemming, box, pan, trim work, and more.

Fasti CNC Folding Machine

Punching

- **30T Single end punch**
- **50T mechanical stamping press**
- **45T mechanical stamping press with servo feed**
With proper tooling can punch, cut, form, or emboss large quantities of parts efficiently and accurately.

Sawing

- **16" x 12" programmable automatic feed band saw.**
- **6" x 4" manual cold saw.**

Other

- **9 1/2" 90° corner notcher 10ga capacity**
- **Pem hardware inserting press**
- **De-burring machine (single edge)**
- **36" wide belt sander**
- **Belt sanders and tumblers for de-burring parts**
- **Drill presses for tapping and countersinking holes**
- **Spot welding**
- **Custom CNC machining**

Extensive material stock

Mild Steel- 22ga - 1/2"
Galvanized- 26ga - 10ga
Stainless Steel- 26ga - 1/4"
Aluminum- .020 - 3/16"

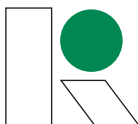

Personal attention is given to every detail. Your satisfaction is top priority.

Bring your blueprints, specifications, or your ideas.

Let's work together to satisfy your fabrication needs.
